Re: Written Confirmation of Discharge
Tank T408-6 (Block 408)
University Heights - Sites C & E

Dear Mr. Skye:

Enclosed please find a draft copy of the Discharge Confirmation Report prepared for the reported discharge from the underground storage tank located on Block 408 near the corner of Newark Street and Academy Street on the C & E site. This report must be filed with NJDEP as a follow up to the discharge reported on December 1, 1994.

Please review the enclosed form and, if correct, complete the certification on the bottom of page #7. Once the certification has been signed please have your signature notarized and return the original, signed form to my attention via Federal Express at your earliest possible convenience. I will prepare the final package and submit the form to NJDEP.

As you will notice, the information provided on the form is brief. A comprehensive report of the activities conducted at the site will be filed with NJDEP under the Memorandum of Agreement (MOA) when that application is finalized. J M Sorge, Inc. (JMS) is completing the MOA application which you forwarded, and a draft of this document will be submitted for your review shortly.

Should you have any question, or require additional information with regard to this matter, please feel free to give me a call at your convenience.

Very truly yours,

James M. Clabby
Project Manager
